

The field builds toward strong and equitable impact at scale by advancing **six observable field characteristics**

Clarity on the intersections, value proposition, and role for the **Public Sector Systems**, reinforced by the relationships within the policy and administrative structures to drive impact

Sustainable, sufficient and equitably distributed **resources** (financial and non-financial) that are critical to supporting the field's actors

Adaptive infrastructure that acts as “connective tissue” to make the field more connected, coordinated and effective

A credible, robust, and evolving **knowledge base** that informs the field's strategy, acts as a credible reference point

Diverse but complementary **actors** that share a common vision and are representative of or authentically engaged with the most impacted communities

Alignment around a clear and dynamic **field-level agenda** that is co-created by diverse stakeholders within the field
